| ✓ Node js    | ✓ MongoDB   |

---

## EXPERIENCE

### Mern Stack developer trainee | SettingsInfoteches

I have joined the company since December 15, 2023.

---

## PROJECTS

### Car Rental Project /Mern Stack

- I developed a car rental application using React.js and Node.js. I created a responsive landing page with HTML, CSS, Bootstrap, and JavaScript. The backend was built with Node.js, incorporating Razorpay for payment integration. After successful payment, the system generates an invoice.

### Quiz Management System / Mern Stack.

- Developed a robust Quiz Management System designed to streamline the creation, distribution, and evaluation of quizzes and assessments. The system offers a user-friendly interface for educators and trainers to efficiently manage quizzes, track participant performance, and analyze results. this website use React.js for frontend and Node.js for backend
